I AM DELIGHTED THAT YOU ARE CONSIDERING STUDYING WITH US.

The Sixth Form is the place for you if you want a full-time learning environment where you will be treated like a young adult and taken on a journey towards independent study whilst being given a high level of support.

Nearly 70% of our students progress to University, but increasingly many also access Higher Level Apprenticeships or gain full-time work. Whatever the route you decide to take we guarantee to provide you with the very best information and advice throughout your time with us so that you will be guided successfully towards the future that is right for you.

Most of our students are with us for two years, sometimes three. In the time you are here we will work hard to ensure that you have a happy, as well as successful time with us. We know, because our students tell us, that they enjoy being here and we know that we can help you to become an independent, critical thinker and confident learner provided that you work hard too.

At the Sixth Form you will be assigned a coach who you will meet with weekly. One of the main ways of making a success of your time at College is to form a strong relationship with your coach and all your teachers. This, however, calls for commitment from you to attend and engage with all timetabled sessions as well as developing mutual trust and respect between you and us.

To get the qualifications you want, to get into the University or job of your choice, you will need to be actively involved in your learning. We’d like you to start thinking about how you learn, what you find difficult to learn, and what helps you to learn.

You bring to the Sixth Form not only all your previous experiences of learning, but also certain attitudes to learning; some of these may have to change if they are not helpful to you. We want you to understand the subjects you are studying, and perhaps even come to love them, as we do. Success depends on you being interested in your subjects and being prepared to put some serious effort into studying them. Expect new experiences, new responsibilities and new methods of teaching and learning.

We hope that you will take time to explore this Guide, visit our website to learn more about the Sixth Form and take one of the many opportunities to visit us to find out more about us for yourself.

PAUL WAKELING, PRINCIPAL
YOUR FUTURE STARTS HERE

WE OFFER YOU:

- The widest range of A Level provision in Havering and East London. We have over 60 courses for you to choose from which means a programme of study can be tailored to suit your needs and prepare you for your future.
- Teachers who are specialists not only in their subjects, but who also specialise in teaching young people just like you which means they know how to get the best from you.
- Excellent Information, advice and guidance before and during your time with us to help you make the right choices.
- A proven track record of facilitating excellent progression to positive destinations which means your future is safe in our hands.
- A purposeful learning environment with outdoor areas and high quality facilities including a Library, Study Spaces throughout the campus, Gym, Multi-Use-Games-Area, Sports Hall, Restaurant, Café, Coffee Bar, social spaces, newly-built and refurbished classrooms, industry-standard science laboratories and TV & Film Studio, a Dance Studio and a Theatre to help you make the most of your time with us.
- A comprehensive enrichment programme that will enhance your studies and help you to mature and grow.

The Sixth Form is therefore the perfect stepping stone from school to the world of work, possibly via University, or other Further Education, including Higher Level Apprenticeships.

As you take this next big step on your journey, this Guide will help you.

For the most comprehensive College and course information, please visit our website. Also, please try to visit us at one of our Open Days or Open Evenings to experience the College for yourself.

WE MAKE LEARNING INTERESTING

“Teachers use varied and stimulating activities during lessons, which challenge and enthuse students. As a result, most students are motivated to learn, take pride in their work and enjoy their lessons, enabling them to make good progress.”

OFSTED 2018

WE’LL SUPPORT AND ENCOURAGE YOU TO ACHIEVE YOUR GOALS

“Teachers use their excellent subject knowledge, expertise and detailed understanding of assessment requirements to prepare students well for their examinations.”

OFSTED 2018

VISIT US ONLINE TODAY OR VISIT US IN PERSON AT AN OPEN EVENT
College Ethos

The Sixth Form is intended to be a bridge between school and the world of work, often, but not always via further study. It is a friendly place in which to study and work and we place much emphasis upon supported self-discipline - our intention is to foster independence in a supportive environment. Students are expected to have a mature and responsible attitude and refrain from any conduct which would harm others or be detrimental to the College.

“Student behaviour is very good during lessons and in the social areas.”

OFSTED 2018

Code of Respect

This College values the diversity and variety of its students and staff and expects all students, staff and visitors to treat one another with equal respect and dignity. The College regards abusive or aggressive behaviour as unacceptable.

“Students feel safe and are safe within the college environment.”

OFSTED 2018

About Us

Quality

Our most recent OFSTED inspection in 2018 rated us as GOOD overall. It identified many key strengths. Our teaching is good, our students achieve good outcomes and go on to excellent destinations. We have very good progression to Higher Education and employment because we provide high-quality careers guidance.

At College, behaviour is good and students are respectful of peers and teachers; teachers instil in students an enthusiasm for their subjects; students receive good support and develop good skills to prepare them for employment.

We aim to be outstanding and we are always seeking ways to improve.

“Governors and senior leaders are ambitious and have high aspirations for staff and students. They have established a strong culture of improvement at the college.”

OFSTED 2018
WHAT WILL I STUDY?

We only offer full-time study programmes for 16 to 19-year-old students. A study programme is made up of courses that provide core qualifications, a timetabled session with a coach to support you and additional activities that enhance your learning.

We treat every student as an individual. Because of the size of our Sixth Form, we can offer you a bespoke study programme which will be created in consultation with you to meet your needs and aspirations, whilst maximising your chance of success. We know which courses work well together and we can predict how well you might do based on your achievement so far.

Before you join us you will have a chance to get personal advice and guidance at an Open Event and at your interview, but you will need to start thinking now about what courses you will choose.

Browse the centre pages of this Guide for the full list of courses and then check our website Course Pages for comprehensive information on the entry criteria and method of assessment, as well as where that course might take you in the future.

Think about the subjects you like best at school, those you are good at and think about how studying courses based on those subjects might support your future goals. When you come for your interview, we will want to see that you have carefully researched your chosen courses using our website and we will answer any questions you might have.

At interview you will be given the information, advice and guidance to make the right choice for you.
In the UK there is a National Qualifications Framework with Levels that go from Entry Level through GCSE (Level 1 and Level 2) all the way up to Level 8, which is a Doctorate (PhD).

Most 16-year-olds are studying GCSEs or BTEC qualifications at Level 2. Achieving GCSEs at grades 1-3 gives you Level 1 qualifications; achieving GCSEs at grades 4-9 gives you Level 2 qualifications.

Most students will join the Sixth Form having achieved Level 2 and be ready to move to Level 3.

At our Wingletye Lane campus, we do not offer any qualifications below Level 2 or above Level 3, but Havering College at Ardleigh Green, Rainham and Quarles, do.

A LEVEL
An A Level is an academic qualification studied over two years. A Levels are highly regarded by Universities and employers alike. They are wholly or mainly exam based.

Please refer to individual course entries on our website for further details about the exact assessment method for each course.

To study an A Level you will need to have achieved a minimum of 5 grade 4s or above at GCSE, but please check our website for individual entry criteria as many A Levels require a higher level of prior attainment.

Most students will study 3 A Levels although for students achieving mainly grades 9-7 at GCSE there is an option to study 4 A Levels. This will be discussed at the interview stage.

BTEC
A BTEC is a vocational qualification that is studied over two years. BTECs are highly regarded by Universities and employers alike. They are mainly coursework based but now usually include examined elements. Please check the details on our website for more information.

A BTEC Extended Certificate is equivalent to one A Level. It offers an alternative to A Levels for students who prefer coursework to exams. It will usually be studied alongside two A Levels but in some circumstances can be studied alongside a BTEC Extended Certificate.

A BTEC Diploma is equivalent to 2 A Levels. It is usually studied alongside an A Level but in some circumstances can be studied alongside a BTEC Extended Certificate.

A BTEC Extended Diploma is ideal for students who are clear about their future ambition. This qualification is the equivalent to 3 A Levels and forms the student’s entire study programme.

To study a BTEC you will need to have achieved a minimum of 5 grade 4s or above at GCSE, but please check our website for individual entry criteria.

PROGRESSION YEAR
If you have achieved mainly grade 3s at GCSE Level, you will first need to complete a Progression One Year Programme before moving on to study A Levels or Level 3 BTECs. The Progression Year Programme will be a combination of a Level 2 BTEC First Certificate and GCSE Maths and English Language - if grade 4 has not been attained.

You will need at least 4 grade 3s and your English Language and Maths grades must be 3 or above for you to start on a Progression Year programme.

Students with grades below this minimum entry for the Sixth Form will be welcomed at the Ardleigh Green, Rainham or Quarles Havering campuses. Guidance will be provided at your interview.

NOTE: The Progression Year is ONLY open to students who live in Havering and/or currently attend a Havering school.

| 2 | 3 A Levels + Core Maths or an AS Level |  |
| 3 | 4 A Levels |  |

**With 35 A Levels and more than 60 courses in total to choose from, we have one of the largest ranges of courses in the country.**

You will be making your choices based on a number of factors:

- Your career path, if known
- Your interests and what subjects you enjoy
- Advice from parents, careers advisors, teachers and your interviewer at the Sixth Form.

**HAVE YOU CONSIDERED?**

- With 35 A Levels and more than 60 courses in total to choose from, we have one of the largest ranges of courses in the country.
- You will be making your choices based on a number of factors: Your career path, if known, Your interests and what subjects you enjoy, Advice from parents, careers advisors, teachers and your interviewer at the Sixth Form.

Take a look at our course list in the centre pages and you will see familiar and unfamiliar subjects.

Some of the subjects you might consider studying with us are:

- DRAMA
- GOVERNMENT & POLITICS
- ACCOUNTING
- GEOLOGY
- MUSIC TECHNOLOGY
- ACCOUNTING
- PHILOSOPHY
- MUSIC
- DRAMA
- TRAVEL & TOURISM
- GOVERNMENT & POLITICS

- PHILOSOPHY
- GEOLOGY
- MUSIC
- DRAMA
- TRAVEL & TOURISM

**Take a look at our course list in the centre pages and you will see familiar and unfamiliar subjects.**

Some of the subjects you might consider studying with us are:
A significant proportion of our students continue their education at university after they have left us, and we encourage this for all students who would benefit from degree study.

Competition for the very best universities is fierce and therefore the purpose of our Aiming High programme is to equip high-achieving students with the skills necessary to thrive.

If you join us with a point score of 7.0 or above - grades 7-9 in most of your GCSE subjects - you will become part of our Aiming High group.

You will benefit from a bespoke Study Programme that will include at least 3 A Levels and a range of other enrichments, you will receive specialist careers advice to meet your specific needs and you will have a chance of possibly studying additional qualifications. You will also meet with a member of the Aiming High team at your interview to fully discuss what this programme will mean for you.

At the Sixth Form students embark together on this important new phase in their educational journey which ensures equality of opportunity. You will also benefit from the diversity that a college of our size affords. This will broaden your horizons and expose you to a breadth of opinion and culture which in turn will help you to develop the thinking that will improve your chances of progression to the very best universities.

OUR AIMING HIGH PROGRAMME HAS TWO KEY ELEMENTS:

STRETCH & CHALLENGE

• 3-4 A Levels
• An enrichment programme (one hour in the lower sixth and two hours in the upper sixth) that will culminate in achieving the Extended Project Qualification (EPQ). The EPQ is a demanding qualification that places a premium on independent study and aids the development of the skills, research, analysis, evaluation and debate that are necessary to complete extended pieces of writing and to prepare for university interviews
• Opportunity to give presentations, including to younger, more able students from local schools
• Opportunity to talk about your subject in depth and with understanding.

MEDICS
If you wish to pursue a medical career, including Medicine, Doctor, Surgeon, Veterinary Science, Dentistry or Pharmacy, you will be part of the Aiming High programme and you will also attend a special weekly two-hour Medics enrichment.

“A very high proportion of students go onto further education, higher education or employment. Most students, on completing a two-year programme, enter higher education, many into prestigious universities.”

</table>
Applying to the Sixth Form is straightforward and fast.

Simply visit our website, click Apply Now, and follow the instructions.

Applications for September 2020 entry may be made from November 2019 and should be completed by our deadline of 31st January 2020.

Full and up-to-date course information is available online for you to research courses before applying. However, we do urge you to first come to an Open Day where not only can you gain first-hand information, but you can also apply on the day.

If you have any concerns about the application process, or if you are having difficulty accessing the online system, please contact the College Marketing, Recruitment and Admissions Team on 01708 514400.

The College day runs from 8.30am to 4.30pm Monday - Thursday with an earlier finish (3.20pm) on Fridays.

A personal timetable will be created for you.

You may have later starts, staggered lunch times or earlier finishes. It is your responsibility to ensure that you attend all your lessons, coaching sessions and enrichment periods on your personal timetable.

Unlike at school, you will not spend all your time in lessons. Any ‘free’ periods on your timetable are designated as ‘study periods’ for you to use for independent study, making use of the facilities in College or working at home.

You are expected to do a minimum of 15 hours’ independent study per week.

You will be allocated a personal coach who you will meet with regularly for support sessions.
COLLEGE UNION & COLLEGE COUNCIL
You will automatically be part of the College Union when you join us. You could also be part of the democratically elected College Council that helps the leadership team in the creation and development of strategy.

CHARITABLE FUNDRAISING
Funds are raised for several charities through a wide range of events organised by our students.

BRITISH VALUES
We recognise the multi-cultural, multi-faith and multi-ethnic nature of both the UK and our College and seek to promote harmony and to fully prepare our students for life in modern Britain through an understanding of democracy, the rule of law, individual liberty and mutual respect and tolerance of those with different faiths or beliefs.

COMPETITIVE & RECREATIONAL SPORT
Currently we run football, netball and basketball teams that take part in competitions with other institutions. However, our main emphasis is on recreational sport for all, such as trampolining, badminton, cricket, tennis, cross country and table tennis as well as football and basketball.

NO SMOKING
We are a non-smoking College for the health and safety of everyone. Students are enrolled into the Sixth Form on the understanding that they will not smoke on the site, and this includes no vaping.

SAFEGUARDING
We remain one of the safest colleges in London and the South East. This has been recognised by Ofsted in their last three visits where they rated Safeguarding as a key strength of the College. Having a safe environment is important so that students can devote their efforts to being successful on their courses. There are full-time safety officers here whose sole task is to keep the site safe and to look out for any possible threats to our students and staff.

Training takes place regularly to ensure key staff are fully aware of the latest developments in safeguarding and that they can deal with any situations which may arise.

LANYARDS & ID CARDS
When you join us, you will be provided with a photo ID card on a lanyard that you must always wear whilst on College premises - this is to help provide a safe and secure environment for all. A safeguarding message giving contact details is printed on the reverse of the card so that if you have concerns you will know what to do. Because we take safety so seriously, if you forget your ID card you will not be allowed on site.

Enrichment activities are designed to enhance your time at the Sixth Form. There are activities for you to enjoy, opportunities to develop new ideas and interests as well as consolidating existing ones.

We offer you clubs and societies, events, taster sessions at universities and places of work, talks by visiting speakers, team sports, recreational sports and a range of other activities that will help to develop skills for the future.

Every week a bulletin is shared to all students and staff informing them of all the activities taking place in College. Check out our website for more information.

CLUBS, SOCIETIES & ACTIVITIES
Enrichment is accessible to all students. Some activities are timetabled and others occur throughout the year. Your coach will assist you in finding out more about these during your time at College. Enrichment is a key part of your experience here. We have a huge range of opportunities available to you. All you need to do is choose what you want to take part in.

As well as clubs and societies, recreational sports and fitness, you can also get involved in the Student Council, the Duke of Edinburgh’s Award and playing in our competitive sports teams against other colleges.

WE’LL BROADEN YOUR HORIZONS
“Managers have put in place a comprehensive enrichment programme. Many curriculum areas provide additional activities to broaden students’ knowledge and understanding of the subjects they study.”

OFSTED 2018
We believe that reading is fundamental to learning and we do all that we can to encourage our students to read more. Our Library has been completely refurbished so that it now offers you an open access but supervised area for quiet individual study as well as a comfortable reading area and a bookable group study space for you to work with your friends. In addition to the quiet study spaces, there are over 40 PCs and iMacs so however you choose to study there is a space for you. The Library team will support you in your research and help you to access learning resources. Throughout the year there are competitions with prizes to be won for simply getting involved with reading more, and others for short-story writing. There are a wide range of books, periodicals, newspapers and on-line journals available for loan or reference. The Library is open from Monday to Friday from 8.00am and stays open until at least 30 minutes after the end of lessons on each day.

In addition to the Library there are many other study spaces across the campus for you to undertake independent study close to the location of your lessons.

**THE ROOM FOR REFLECTION**

The College has a multi-faith Room for Reflection that is available for students and staff who wish to pray, meditate or take a quiet break during the day.

**SPORTS HALL, GYM, OUTDOOR GYM & MULTI-USE-GAMES-AREA (MUGA)**

The sports hall and the Multi-Use-Games-Area (MUGA) are in use throughout the week for various Sport lessons, as well as training sessions for many of the College sports teams. The gym and fitness suite is equipped with free weights, machine weights and cardio-vascular equipment. We currently employ fitness instructors who can offer tailor-made training plans along with advice on nutrition, lifestyle and health. An outdoor table tennis table and equipment is available for you to use during break times as well as an outdoor gym, and you are also able to use the MUGA for sports activities at lunchtimes and after lessons.

**THE RESTAURANT, CAFÉ & COFFEE BAR**

Food and drink are readily available - our Restaurant, Café and Coffee Bar all serve a wide range of hot and cold food, salads, pastas and sandwiches with an emphasis on healthy eating.

**THE QUAD**

The Quad is a large covered space used for private and group study, socialising and as a meeting point. It incorporates a coffee and snack bar and has IT access.

**IT HELPDESK**

The IT Helpdesk will assist with any technical computer enquiries or problems. There is Wi-Fi access across all areas of the Sixth Form.

**LOCKERS**

Lockers are available for the storage of inexpensive personal property.

**FINANCE**

Currently the additional finance support for eligible students is through the Government’s Bursary scheme. Details can be found on our website and, once enrolled, Bursary application forms can be submitted in September. On enrolment you are required to pay a returnable deposit, currently £60, to cover possible failure to return books or attend exams. Other charges relating to specific courses may also be made - please ask at your interview for details.

“Students benefit from well-resourced learning environments in classrooms, practical areas and open study areas.”

**OFSTED 2018**
Providing support tailored to your individual needs is one of our top priorities because we know that quality support can make a huge difference to your performance.

COACHING

Every student in College is part of a small coaching group that meets weekly for mutual support, advice and guidance. The coach establishes a close working relationship with their small group of students through weekly meetings and one-to-one appointments. Progress is reviewed, success is celebrated and targets for improvement are agreed. Your coach will also help you to access any support that you need.

ACADEMIC SUPPORT

Subject teachers will help you to access the support you need in a variety of ways including our online Virtual Learning Environment (Moodle). Moodle provides resources and activities to support all students’ learning coupled with an opportunity to discuss your subjects through moderated discussion rooms. Moodle can be accessed both from within College and from outside, allowing you full access and connectivity to learning materials and discussion groups from home.

COLLEGE COUNSELLORS

The College provides trained counsellors on site for students. This is a free, confidential service aimed at helping you with difficulties you may be facing in your personal life. You can make an appointment through your coach.

THE ZONE

The Zone is our facility for students with a disability, serious illness or injury. Students returning to College following surgery or serious illness also find it useful as a place to rest and study during their free periods, alongside students who are stressed, anxious or who just need time to relax. It offers showering and toilet facilities and is managed by a fully-qualified team of experts who have considerable experience in dealing with students with physical, medical or emotional needs. Please see our website for further information about the support offered by staff in The Zone.

“Through an effective coaching programme, students receive good support and guidance which help them stay on their course. Students have good access to a counselling service.”

THE CUBE

Helping our students progress to good universities, apprenticeships or the world of work

The CUBE is a new purpose-built area for our award-winning Careers team who provide advice for students taking their next steps after College.

We are the top college in East London - and in the top 10% nationally - for student progression to positive destinations with over 90% of our students going on to either university, employment or training.

THE CUBE STANDS FOR:

- Careers: One-to-one careers appointments to discuss your career options
- University: Advice on UCAS, choosing courses, personal statements and student finance
- Business Links: Help finding work experience, internships and opportunities to enhance your CV
- Employment: Advice on apprenticeships, CVs, job applications and interview skills

The CUBE is well stocked with careers and higher education resources, together with copies of prospectuses from all UK universities.

THE CUBE CAN HELP STUDENTS WITH:

- UCAS applications
- Exploring all career options
- Finding a job or apprenticeship
- Writing a CV and covering letter
- Applying for jobs and apprenticeship schemes
- Preparing for an interview
- Providing opportunities for internships, work placements, insight days and summer schools with top city firms
- Careers and Higher Education events where students can meet university and employer representatives in College
- Presentations by speakers from global companies like PWC, KPMG and Ernst & Young (EY)
- Work experience and volunteering.

“Well qualified and experienced staff provide very good impartial careers advice and guidance to students.”

OFSTED 2018

WE’LL SUPPORT AND ENCOURAGE YOU TO ACHIEVE YOUR GOALS

“We staff know their students well and support them to remain in learning and make good progress. Students enjoy their studies, are highly motivated to learn and work diligently during lessons.”

OFSTED 2018

WE’LL GIVE YOU GREAT ADVICE

“Well qualified and experienced staff provide very good impartial careers advice and guidance to students.”

PROUD TO BE PART OF NEW CITY COLLEGE

VISIT US ONLINE TODAY OR VISIT US IN PERSON AT AN OPEN EVENT

EDUCATING YOU FOR YOUR FUTURE

www.havering-sfc.ac.uk @havering6thform @haveringsixthformcollege

THE HAVERING COLLEGES ARE:

Havering College Sixth Form, Havering College Ardleigh Green, Havering College Rainham, and Havering College Quarles and together we are part of New City College (NCC).

Since 1991 the Havering Colleges have worked together to provide a comprehensive high quality, education and training offer for young people, adults and employers. On 1st August 2019 the merger between Havering Sixth Form College, Havering College of Further and Higher Education and NCC took place.

The Havering Colleges offer young people who are educated and/or live in the borough a guaranteed place at one of our campuses, providing that entry requirements are met.

NCC is the largest college in east London, formed by a merger in 2016 of Hackney Community College with Tower Hamlets College and then in spring 2017, with Redbridge College. In August 2018 there was a further merger with Epping Forest College.

As the college has increased in size and scale, it has retained strong local identities and its campuses in each borough continue to provide a strong choice of courses for the communities they serve.

Together we are the second largest provider of post-16 education in the country with a breadth of curriculum offer that has something to suit everyone. We are now well-placed to continue to provide academic, professional and technical qualifications that meet the needs and aspirations of our local communities.
We are easy to find in Wingletye Lane, Hornchurch, with Upminster Bridge Tube Station and Upminster Mainline Station in walking distance. We are also well served by local buses with bus stops very close to our main gate.

We want to encourage you to walk, cycle or use public transport for your journey to the Sixth Form and we have no on-site car parking for students, except those with disabilities.

TRAVEL BY BIKE:

The College encourages staff and students to cycle to College. Cycle racks have been installed and there are storage, showering and changing facilities. There is a limited amount of parking for motorcycles.

For further details visit: www.tfl.gov.uk or use Google maps.
EXCELLENT RESULTS FOR SIXTH FORM STUDENTS

• 95% overall pass rate
• 117 students achieved A*-A
• 419 students achieved A*-B
• 876 students achieved A*-C

In addition, 100% pass rates were achieved in many courses with almost all attaining pass rates in excess of 93%.

Students achieved fantastic results on many courses, including facilitating subjects favoured by the Russell Group Universities: Chemistry, Computer Science, English Literature, Spanish, and the arts – Textiles, Photography, Graphics, Architecture & Interior Design and Fine Art.

Many students now study predominantly vocational courses and fantastic results were achieved in BTEC qualifications too. There were 80 students who gained the top mark of a Triple Distinction* with high numbers of Distinctions and excellent progression to work and university.

At Havering Sixth Form we are expecting that around 700 students will again progress to university, and that our students’ progression to Russell Group universities will be good.

A significant number of students will be embarking on superb employment opportunities maintaining our record on achieving high quality destinations for all of our students.

I am very proud of this achievement for both our students and staff. It will contribute towards our mission to be recognised regionally and nationally, as a centre of excellence for high quality education, social inclusion and outstanding progression.

We welcome students of all abilities and we offer a very broad curriculum - 34 A Levels and 64 courses overall – with a wide and growing range of enrichments and work-related opportunities. We are very pleased that we enjoy success across that broad offer.

Paul Wakeling, Principal - Havering Colleges Group Deputy Principal NCC

OXBRIDGE AND MEDICAL SCHOOL SUCCESS

Two students will be going to Oxford University and two students will study for Medical or Dentistry degrees after all four achieved amazing A Level results.

Rory Fitzroy, formerly of Royal Liberty School, will study Biomedical Science at Oxford University after gaining 2 A*s and 2 As.

Eleanor Ling, who took a gap year after achieving straight A grades last year, will study Philosophy and Theology at Oxford University.

Farah Buchar, formerly of Ilford Grammar School, will study Medicine at Imperial College London, after gaining three A grades and a B.

Visar Memelli, an ex-student at Brittons Academy who took a gap year after achieving 2 A*s and an A last year, will study Dentistry at Plymouth Medical School.

INDIVIDUAL STUDENT ACHIEVEMENT

Abbie Morgan, formerly of Ablas Cross Academy, achieved an incredible 3 A* grades in Computer Science, Maths and Further maths. She will be taking a gap year tutoring GCSE Maths in schools, before applying to university to do Computer Science next year.

Danius Grabliauskas will be studying Engineering and Architectural Design at UCL after achieving a fantastic 2 A*s in Maths and Interior & Architectural Design, an A in Further Maths and a B in Physics. The former Hathaway Academy student said the long journey from his home in Thurrock was well worth it: “I’m so glad I came to this sixth form. It has been amazing.”

Kaylah Lafeuille achieved the highest possible grade of Triple Distinction* in the BTEC Extended Diploma in Applied Science and will now study Psychology at City, University of London. Kaylah, who was a College Student Ambassador, said: “I’ve loved my time here, the teachers have been really supportive and I’ve made some great friends.”

Joshua Ellis, formerly of Redden Court School, will start an Engineering Apprenticeship in the Army or Navy, after achieving a Double Distinction* in BTEC Engineering, an A* in the EPQ and a B in Design Technology. Joshua also achieved a Silver Duke of Edinburgh Award while he was at college.

STUDENT SUCCESS 2019
DATES FOR YOUR DIARY

EVENING ‘TRANSFER TO COLLEGE’ PRESENTATIONS TO YEAR 11:

Havering schools only
From September - November 2019
