

JOB DESCRIPTION – Subject Leader Sociology

We are keen to appoint an energetic and dynamic subject leader to raise achievement in this very popular subject area. Sociology is an innovative department with high expectations and a strong commitment to improving student performance

Applications are sought from those with good academic qualifications, an interest in all levels of ability and the use of a wide range of teaching styles. The successful applicant would be an outstanding practitioner and the college would particularly favor applications from those with experience of past examining experience in Sociology with AQA.

The teaching in the Department is predominantly A level AQA Sociology. There are currently nine groups in the lower sixth and eight in the upper sixth. The newly appointed subject leader would be ideally placed to lead developments in the Sociology; particularly the re-sequencing of topics across the two years.

Many teaching staff are also personal tutors and fully engage in a pastoral role guiding and advising a group of tutees.
